National Park Service

Lake Mead National Recreation Area; Operation of a Marina at Willow Beach

SUMMARY: The National Park Service is issuing a second solicitation seeking offers to operate a marina at Willow Beach Site within Lake Mead National Recreation Area. This will be a 125 slip marina with modest food and store operations along with related services. There is no existing operator. This opportunity is fully competitive. The existing facility is government-owned. An initial capital investment will be required for the rehabilitation of marina facilities. The term of the contract has been extended from five to ten years. In addition, rather than having to write-off the investment in the new marina docking system during the contract term, the concessioner will be allowed a possessory interest in that facility (a right to be compensated at the end of the ten years) at either the appraised value, based on its replacement cost less wear-and-tear and obsolescence or on the investment made (whichever is less). The closing day for acceptance of offers is September 30, 1997.
